

AirMedic+ Series

Advanced Air Filtration, Superior Particle Control

Simply put, the AirMedic+ series provides the most effective air purification technology available. The air purifiers in this series feature variable speed control, a sealed motor, sure-seal gaskets and 360-degree air intake to provide superior particle control, plus 18-25 pounds of activated carbon for adsorption of airborne chemicals, gases and odors.

The advanced design of the AirMedic+ series passes DOP testing, making these models trusted solutions for hospitals, clean rooms and laboratories, which demand the very best in air purification. Round out this series with the UV light option to add protection against viruses, mold and bacteria.

For the asthma and allergy sufferer, or for the very best air purification system, the AirMedic+ series is the definitive solution.

AirMedic+ Series

1 Customizable Features

a Activated Carbon Blend

Exec Blend: Our Exec carbon is our general-purpose blend, ideal for trapping a wide range of airborne chemicals, gases and odors.

Vocarb Blend: Our Vocarb carbon is our boosted blend, offering a more aggressive removal of hard-to-trap airborne chemicals, gases and odors. This blend is best suited for newly renovated environments, unknown contaminants and/or formaldehyde.

Custom Blend: Have an unusual IAQ problem? Let us customize the perfect carbon blend solution!

b Filter Depth

A unit's filter depth is key to its adsorption capacity. Customize your unit with a 2" (regular) or 3" (deep or "D") carbon bed filter to maximize its chemical-adsorption efficiency.

2 Optional Features

a Virus, Mold & Bacteria Protection

Customize your air purifier with a UV light to provide additional protection from viruses, mold and bacteria.

b Pro Option

Ask about our Pro series to equip your unit with a 6" exhaust duct for negative air.
